

CALENDAR AND THEMATIC PLAN OF PRACTICAL CLASSES IN PHARMACOLOGY
FOR 3RD YEAR STUDENTS OF THE FACULTY OF MEDICINE **17 group**
(students in a foreign language)
FOR THE FALL SEMESTER OF THE 2021-2022 ACADEMIC YEAR

№	The theme of the lesson	Dates
1.	General recipe. Solutions for external and internal use.	02.09.
2.	Liquid dosage forms. Infusions and decoctions. Tinctures and extracts. Novogalenovy drugs. Mixtures. Dosage forms for injection. Sterilization methods drugs.	07.09
3.	Soft and solid dosage forms. Aerosols. Eye films. Final lesson on the General recipe	16.09
4.	General pharmacology.	21.09
5.	Drugs affecting efferent innervation. Drugs affecting cholinergic synapses. Drugs affecting muscarinic and nicotinic cholinceptors. Anticholinesterase drugs. Drugs affecting muscarinic cholinceptors. Drugs affecting nicotinic cholinceptors.	30.09
6.	Drugs affecting adrenergic synapses. Adrenomimetics. Adrenoceptor antagonists.	05.10
7.	Drugs affecting afferent innervation. Local anesthetics. Astringents. Coating drugs. Adsorbents. Irritants.	14.10
8.	Final lesson on the pharmacology of drugs that affect the peripheral nervous system	19.10
9.	Drugs regulating the functions of the central nervous system. General anesthetics. Ethyl alcohol. Hypnotics. Antiepileptic drugs. Antiparkinsonian drugs	28.10
10.	Opioid (narcotic) analgesics and their antagonists. Non-opioid analgesics. Pharmacological approaches to solving the problem of analgesia.	02.11
11.	Psychotropic drugs. Antipsychotic (neuroleptic) drugs. Anxiolytics (tranquilizers). Sedatives	11.11
12.	Psychotropic drugs. Antidepressants. Nootropic drugs. Psychostimulant drugs. Analeptics. Psychodysleptic. Drugs that cause drug dependence	16.11
13.	Final lesson on the pharmacology of drugs that affect the nervous system	25.11
14.	Cardiotonic agents. Antiarrhythmic drugs	30.11
15.	Drugs used for the treatment of ischemic heart disease. Drugs used for the treatment of cerebral blood circulation disorders. Venotropic (phlebotropic) drugs	09.12
16.	Antihypertensive and hypertensive drugs. Diuretics	14.12
17.	Drugs that affect platelet aggregation, blood coagulation and fibrinolysis	23.12
18.	Final lesson on the pharmacology of drugs that affect the cardiovascular system and blood clotting	28.12
